LAURENCE SIMMONDS VIDEOGRAPHY

Wedding *collections*

Films of your day the way it felt: calm, planned coverage with good light and clean sound. I film weddings across the San Francisco Bay Area and beyond.

Every collection includes **licensed music** and **drone footage** where the FAA allows it. Bring a hard drive, and **all the raw footage is yours** too.

HOW IT WORKS

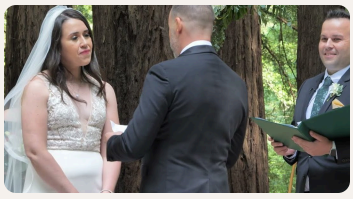

1. **Say hello.** Tell me your date, venue and what matters most.
2. **We meet.** A relaxed call to plan the moments that matter, then a deposit holds your date.
3. **The day.** I blend in and film it as it happens.
4. **Your film.** Ready in two to four weeks, depending on your collection.

FROM A COUPLE

"He was so kind & made sure we had the experience we wanted. We hardly even noticed they were there during the wedding..."
